1. For log base 2 n0 = 16

2. n0 = 20

3. Ordered from quickest to slowest

Constant time O(1)

b) 2^10 Constant time

Linear time O(n)

c) 2^(log n) Linear with log base 2 (equivalent to just n)

f) 2n Linear

d) 3n + 100logn (approximately linear for large n)

e) 4n Linear

Linearithmic time O(n log n)

i) n log n

a) 4n log n + 2n

Quadratic time O(n^2)

g) n^2+ 10n

Cubic time O(n^3)

h) n^2
